

**Energy saving
with FS-COMFORT**

Consistent focus on the increasing energy costs in conjunction with all FS-packaging devices by using the latest technology. (18.3.16)

€ continuously heated 12,00*	Bags per day with doublesealing					bags per day with two sealings costs € monthly
	100	50	40	30	20	
	0,91	0,78	0,75	0,74	0,69	

Calculation table

Basis for the calculation of the table is a KW/h price of 20 ct. Calculated that all devices are working on 14 hours a day at 25 working days / month.

100	50	40	30	20	bags per day with two sealings costs € monthly
0,91	0,78	0,75	0,74	0,69	

* The additional "hidden" energy costs from cooling down the area around the device is not calculated in this table. (Depending on the room temperature: additional factor up to 2.5 energy expenditure) Not applicable for all FS-devices!

up to 2.5 times
value of consumption

Energy consumption of cooling down the heated air after the heat release duration heated appliances
